

Get to know: Staci Steidley

Where are you from?

I am originally from Nebraska but have also lived in Oklahoma and Virginia.

Tell us a fun fact about yourself.

I love sailing and have a dream to live on a sailboat for several months each year.

If you could work in any other field, what would it be?

I would have been a landscape architect, I think! I love plants and trees and designing with them.

When hosting, do you cook or order out? (And what's your best dish/go-to place?)

We cook! Even if it is a simple meal on the grill, we love to entertain. Both my husband and I love to cook, so we are always creating something new.

What's your favorite travel destination?

I love a mix of relaxing travel in the Caribbean on a boat and exploring anywhere in Europe.

STUDIO STEIDLEY

Answers by Staci Steidley,
Creative Director and Owner
studiosteidley.net

Please give us a brief history and overview of your company.

Studio Steidley was founded in 2015 and specializes in creating beautifully livable environments that stand the test of time. I lead my team with over 25 years of experience, including a strong architectural and corporate design background, which is reflected in the details that are included in each design.

What inspired you to pursue this line of work?

As a little girl, I was fascinated by architecture. My parents built two of the homes we grew up in, and my mom and I would study floor plans and talk about why she liked one versus the other. For fun, we would walk houses under construction and try to figure out each room's purpose. It was no surprise that when I went to college, I wanted to study architecture and interior design.

What do you feel distinguishes you from your competitors?

Our vast experience with interior

architecture and the layering of architectural details gives Studio Steidley a unique ability to imagine all the possibilities within your space. Our team is expert at translating these ideas into the documents needed to make sure the vision comes to life, and our processes of layering on the furnishings, art, and accessories brings the "wow" factor that our clients are looking for within their homes.

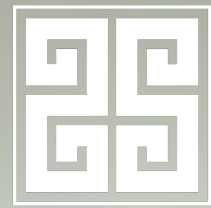

If you had to describe your style in three words, what would they be?

Refined. Unexpected. Fun!

Will you take on projects of any size or scope?

We really like to have a variety of projects on our books. We like to have some that are full-home design, some that are remodels, and some that could be a few spaces with furnishings. This provides a great balance for us, and we enjoy mixing it up!
